## MISS RAGAN WEDS MR. GAY

Prominent Young Couple Surprise Friends by Being Married Sunday.

Miss Mary Bigstaff Ragan and Mr. Marvin Nelson Gay surprised their host of friends by being quietly married Sunday evening at 7 o'clock at the residence of the grandmother of the bride, Mrs. Mary E. Bigstaff, with whom she has been making her home for many years. Immediately after the ceremony the young couple left in an automobile for Lexington from which point they will go for an extended wedding tour in the East, returning about May 1st. The ceremony was performed by Rev. J. S. Wilson, of the Baptist church and only a few relatives and intimate friends were present.

Miss Ragan is a charming and attractive girl, possessing many beautiful traits of character and will make the man of her choice a helpmate of whom he should be proud.

Mr. Gay, who has been bookkeeper and salesman for J. D. Hazlrigg & Son for several years, is a most exemplary young man of fine business sense and ability and by his genial disposition and pleasing manner has made for himself many warm friends.

That their lives may always be filled with the sunshine of happiness and prosperity is the sincere wish of the Advocate.

## CIRCUIT COURT IN SESSION

April Term of Montgomery Circuit Court Began in this City Monday Morning.

The April term of the Montgomery Circuit Court began Monday morning with Hon. William A. Young presiding.

There are few cases of importance to be tried here this term and the criminal docket is extremely light. The only case of note is the case of the Commonwealth vs. E. Arnett, etc., transferred here from Magoffin county on a change of venue. The case will be heard by Special Judge, Charles C. Marshall, who has notified the attorneys interested that he will arrive here Thursday and it is expected that both sides will announce ready for trial, as there are already a large number of witnesses here from Magoffin and other eastern Kentucky counties.

Judge Young's instructions to the grand jury were short but comprehensive.

The following gentlemen compose the grand jury: M. R. Hainline, foreman, J. D. Greenwade, Arthur Jacobs, John R. Sharp, J. D. Gay, Joe Drennon, L. W. Mallory, J. M. Hutsell, Hughes Atkinson, Wm. Hiler, D. C. Tipton and Arch Botts.

The petit jury is made up of the following gentlemen: J. R. Thomas, F. M. Lockridge, Chas. Wyatt, Peter Greenwade, A. B. Pieratt, J. F. Evans, J. Prewitt Young, Letcher Barrister, Wm. Scobee, A. C. Bogie, J. B. Clark, Luther Bittinger, F. M. Fortune, Arthur Bybee, Morton Ramey, L. M. Cash, J. M. McCormick, Jas. A. Scobee, E. C. Hainline, J. B. Cecil, R. H. Dale, R. H. Dale, John Lee, Jim Denton.

## BASE BALL

The Sharpsburg High School team was defeated by the Montgomery County High School nine last Friday at the Fair Grounds, in this city, by the score of 6 to 2. The batteries for Sharpsburg were Atkinson and Cracraft; for the locals, Barnard and Horton. Atkinson was "easy" after the fourth inning when McGuire batted the ball to the race track for a home run and Dunavent followed with a triple.

## BUYS FORD

Mr. A. B. Hall purchased from Paul Strother, agent of the Ford automobile in this city, a Ford runabout. Mr. Strother is enlarging his garage and when completed will be enabled to take care of fifty machines.

## KENDALL-- COWLES

Wedding One of Most Beautiful Every Had in the City of Mt. Sterling.

The wedding of Miss Rebecca B. Kendall and Mr. S. Macon Cowles, Jr., of Nashville, Tenn., was solemnized at the residence of the bride's uncle, Dr. B. F. Thomson, on East Main street last Wednesday at 2 o'clock. The handsome old home was beautifully decorated for the occasion. Rev. A. H. Hibshman, former pastor of the local Presbyterian church, performed the ceremony.

Just before the ceremony a musical program was rendered by Miss Cora Baldwin, of Winchester, at the piano, Mr. Wm. Woodford with first violin and Mrs. A. H. Hibshman with second violin, consisting of "Caratina" by Raff, "A Perfect Day" by Mrs. Bond, "Barcarolle from The Tales of Hoffman" by Offenbach.

Dr. Sebastian Cowles, brother of the groom, was best man while Miss Jean Kendall, sister of the bride, was maid of honor. Little Misses Agnes Stofer and Elizabeth Ann Reynolds were ring bearers. During the ceremony "Oh Promise Me" was played softly and the beautiful double ring service was used. Immediately after the wedding delightful refreshments were served.

Only relatives and a few intimate friends of the bride were in attendance. Among the out-of-town guests were Mr. and Mrs. Andrew P. Darnall, of Flemingsburg; Mrs. Alfred Brumage, of Lexington; Miss Jane Darnall, of Flemingsburg, and Miss Cora Baldwin, of Winchester.

Mr. and Mrs. Cowles left for Cincinnati where they were entertained at the Sinton by a relative of the bride.

Mr. Cowles, who is a member of one of Tennessee's leading families is a prominent young business man of Nashville, where he and bride will make their future home.

His bride is one of Montgomery county's most popular and beautiful daughters. The Advocate joins in extending congratulations and best wishes.

## MONTGOMERY COUNTY MAN GIVEN PAROLE

Governor McCreary has given a pardon to William Walters, of this county, convicted for horse stealing and sent to the penitentiary for from two to ten years for the offense. He had served one year. The pardon was recommended by a majority of the jury that convicted Walters, the Commonwealth's Attorney, the man from whom the horse was taken, and a large number of citizens of Montgomery county.

## BUYS INTEREST IN LEXINGTON BARBER SHOP

Mr. James S. Turner of this city and Lefe Wills, of Lexington, have purchased a one-half interest in the Leland Hotel barber shop at Lexington from E. C. Malick. The firm will be Malick, Wills & Turner.

Mr. Turner's many friends here wish him abundant success in his new enterprise.

## EASTER SERVICES

## FOUR GUNMEN ELECTROCUTED

Four Men Pay the Penalty for Their Crime at Sing Sing Prison Monday.

Frank Cirofici, Harry Horwitz, Louis Rosenberg and Jacob Seidenshner, the four gunmen convicted of the murder of Herman Rosenthal, a well known New York gambler, were electrocuted Monday morning at Sing Sing prison. It is said that one of the men left a written confession of the crime and that in it he says that Police Lieutenant Becker, who was also convicted of the same crime, but who has been granted a new trial had nothing to do with the murder at all.

This case attracted attention all over the world as the murder which was committed in front of the Hotel Metropole, was one of the boldest and most cowardly ones committed in years. The outcome of the Becker trial will be watched with interest.

The investigations started after this crime resulted in many changes and improvements in the police department of the great city.

## VICTIM OF APPENDICITIS

Prominent Stockman and Farmer Succumbs After Operation at Lexington.

Our whole city was grieved to learn that early Tuesday morning Mr. James McDonald had died at a Lexington hospital. Mr. McDonald developed appendicitis last week and was rushed to Lexington where he underwent an operation and it was thought until late Monday afternoon that he was doing nicely, when complications set up that caused his death. Mr. McDonald was born August 23, 1874 and had lived here all of his life. He was one of the most prominent stockmen and farmers in Montgomery county. He had been a member of the City Council for several years and by his fine business ability and strict attention to the city's welfare, had made a most excellent record.

To know James McDonald was to like and respect him; a man of strong convictions and opinions, yet always willing to respect the opinion and feelings of others, he had, by his courteous treatment and fair dealing with his fellow man made himself one of the most highly respected and popular men in our community.

He is survived by his wife (nee Miss Lillie Welsch) and little son, five brothers, Messrs. Charles C. John and Bell J. McDonald, of this county, and George McDonald, of St. Louis, Mo., and Tom McDonald, of Cincinnati, Ohio, and one sister, Miss Mary McDonald, of this city, besides many other relatives. Funeral services will be held Wednesday afternoon at 2:00 o'clock, conducted by Rev. Father E. B. Rohrer, with burial in St. Thomas' cemetery.

To the stricken family in their hour of sorrow and grief we extend our deepest sympathy and may the God of love and mercy that watches over us give relief to their aching hearts and enable them to say "Thy will, not mine, O Lord, be done."

## EXTENSIVE IMPROVEMENTS

Made By Montgomery County Fair Association at Grounds On Elmwood Farm.

The Montgomery County Fair Association has made many improvements in the grounds this spring. They have had all the brush and rubbish cleaned away, the stables thoroughly cleaned and fumigated, the track regraded, worked and rolled and a little later all the buildings are to be painted and the stables and fences whitewashed.

There will also be a mammoth flower bed ten by thirty feet planted in the infield in front of the grand stand. Every effort is being made to make the grounds the best and most attractive in the State. Mr. C. G. Thompson has the work in charge which insures everybody that knows him that it will be done in a thorough manner. The writer was impressed with the terrible unsanitary conditions that exist in the section of the city in which the fair grounds are located, nearly every vacant lot is filled with trash of all kinds, tin cans, ashes, etc. In fact, lots of trash has been dumped on the side of the streets. This should not be allowed, a public dump should be established and the people compelled to use it. The colored people living in that section should not be subjected to such treatment. People coming to our city see these things and are bound to form a bad opinion of us. We should have more civic pride.

#### SANITARY FOOD

##### PACKAGES

The suggestion is made by a writer in the Kansas City Star that the public does not pay enough attention to the way in which flour, sugar and other things are packed and handled. The point is made that foods which cannot be washed or cleaned before using should be bought only in packages that are impervious to dust and germs.

There are many products which do not receive proper protection in their sometimes circumlocutory transit from the mill or factory to the table of the consumer. Flour, for instance, is easily contaminated and it is put up in a great variety of packages. It is a product that is in universal use. The fact that it is baked or cooked, the writer in the Star says, "does not eliminate the dangers of impurity and disease, nor does it lessen the repulsiveness of dirt and pollution."

The sanitary package has come into great favor. It has been applied to almost every article of food that is sold in modern groceries. As a rule it increases the cost of the product, but the customer pays sanitation tax, as it might be called, most cheerfully. Everybody wants pure food and in response to the enlarging popular demands in that direction many of the manufacturers of food products are striving for cleanly methods of handling and shipment. The old-fashioned grocer who sold practically all

his goods in bulk has gone the way of all the eath. Clean factories and sanitary groceries are increasing in number.

There remains, despite rapid progress, much room for improvement in the handling of some of the most common articles of food. Wrapped bread is still the exception instead of the rule and while there may be flour packages that are ideal from the standpoint of cleanliness there are many which are not. But the purchasing public is getting wiser in these matters all the time and ultimately will insist upon higher standards.

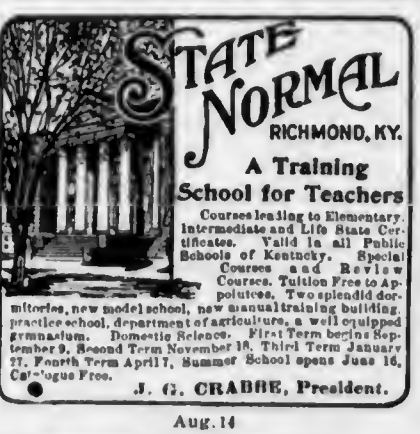

While the Honorable William Gustavis Bouie was making the race for prosecuting attorney he crossed four plowed fields to shake hands with horny handed farmers, and then got defeated. Gentlemen of the jury, this political life is sure one Rocky Road to Nowhere. You can tell the world that.

### Farmers Interest Seed Corn

Will Increase Your Yield 10 to 30 Bu. Per Acre

We care not what corn you have now, if you plant **FARMERS INTEREST WHITE DENT** along side of it it will beat it 10 to 30 bushels per acre.

**Farmers Interest** has been bred for 18 years. Barren stalks have been eliminated, the ears grow very large and the quality is high. This variety has always won the highest honors at the great International Corn Expositions, open to the world, from the first one held in Chicago in 1907, down to and including this year, in 1924.

The selection, breeding and improvement of this corn has conferred on farmers, and all the people, greater benefits than all the work of Luther Burbank, the plant wizard of California.

The least expensive and most certain way to improve a corn crop is to let others do the breeding and you buy the result at a small price per bushel. For a farmer to produce a bushel of corn like we sell him for a couple of dollars would require the work of years—worth a thousand dollars or more.

Send your name for a **FREE** sample and further particulars and **photo reproductions of grand sweepstakes exhibits**. Better write NOW. The photographs of prize-winning corn are well worth seeing.

#### WATER AND TY-PHOID FEVER

Where there is improvement in city water supplies there is invariably a notable decrease in the number of cases of typhoid fever.

The Washington Star says typhoid has sharply declined in that city since the installation of a water filtration plant, and "such cases as appear can usually be traced to out-of-town infection." The Star thinks that most of the typhoid fever now originating in the city could be traced to the use of well or spring water, "for by no means are all premises in the District yet connected with the Potomac mains; and it is curious with what persistency some people will cling to an old pump and write letters of complaint to newspapers and District Officials when city authorities order the condemnation and destruction of that pump."

People are creatures of habit, and it is hard for them to break away from things to which they have become habituated. The time has been when the public well or the town pump or the big spring constituted a reasonably safe source of water supply for the town or village. It is even conceivable that the pumps which are still in evidence in some parts of Louisville and at other points in the State, might at one time have furnished wholesome water, for some of the more very old, their history running back perhaps, to a period that is beyond the knowledge of the oldest inhabitant. But Louisville has progressed from village days and village ways, and the town pump no longer has any excuse for existence.

#### HEMP CROWDED OUT BY TOBACCO

Kentucky once led all the states of the Union in the production of hemp. The state's primacy in hemp growing was as well established at that time as is its leadership in tobacco production today.

According to a Lexington dispatch Prof. Garman, of the State Experiment Station, believes the farmers are making a mistake in so generally abandoning hemp and giving so much attention to the production of tobacco. He insists that hemp is a remunerative crop when raised for the seed alone. An acre of hemp will produce from ten to twelve bushels of seed, and hemp seed is in ready demand at \$5 a bushel.

Growing tobacco, Prof. Garman says, is having a bad effect on the Kentucky soils which already are deficient in vegetable matter, and in some places lacking in other desirable ingredients. "The man who has the nerve to withstand the general tendency, to turn his back on tobacco and grow crops not grown by everybody about him, ought to make more money in the next ten years than he can make from tobacco, and by doing so will certainly take less from his land and find it in better condition at the end."

Prof. Garman believes the State could profitably plant several times the present acreage that is being devoted to hemp, since our hemp growers are not able to supply the demand for seed by many thousands of bushels. In recent years the acreage of hemp has decreased in Central Kentucky every year. In the meantime the acreage of to-

ton, the city health department has been condemning and destroying these old pumps for a number of years in the interest of the public welfare, but its efforts in that direction have met with foolish opposition, here and there, of the same kind described by the Washington paper. There was less bad water in Louisville and the country in general a hundred years ago than there is at the present time. A considerable element of the population, however, does not seem to have taken account of the difference in conditions.

#### INJUNCTION SUIT FILED

Judge H. Clay McKee has instituted suit in the Montgomery Circuit Court against Geo. W. Anderson, Jr., seeking an injunction to prevent the defendant from placing buggies along Bank street and from washing vehicles out on said street, same being, so plaintiff alleges a nuisance. The matter will be heard at the present term of court. Judge McKee is a large property owner on Bank street, where Mr. Anderson's livery business is situated. It is said that the city authorities have investigated the matter and declined to take any action against Mr. Anderson.

#### A BIT OF ADVICE

First—Don't Delay.. Second—Don't Experiment.

If you suffer from backache; headaches or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble—they are recommended by thousands. Can residents desire more convincing proof than the statement of a citizen of this locality?

M. P. Lowry, 23 Taylor Ave., Winchester, Ky., says: "When I used Doan's Kidney Pills, I found them very satisfactory. I recommend them for kidney complaint and backache."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Lowry had—the remedy backed by home testimony, 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

bacco has been increasing. In the census of 1910 fewer than 500 farms reported hemp and of these only eighty-two sales of hemp seed. There seems no room for doubt that the State would be benefitted by a revival in hemp growing.

#### TO BUILD ROAD

At the meeting of the Nicholas County Fiscal Court Tuesday, \$10,000 was appropriated for the purpose of building a model road from the Bath county line to Millersburg, via. Carlisle. The appropriation is conditional and is to be binding in the event the citizens residing along the line of the proposed model road will raise \$10,000 to be used for such work. The line of road proposed for improvement is fourteen miles in length and traverses the richest section of Nicholas county. The citizens who are backing the movement are inclined to the opinion that the citizens residing along the line will be enthusiastic about the proposition and will contribute their liberal support to the project, which is the first model road proposition the county has ever undertaken.—Carlisle Mercury.

## DOCTORS INDORSE NEWBRO'S HERPICIDE FOR THE HAIR

When a doctor indorses a preparation it means more than an ordinary testimonial. His opinion is always that of the professional man devoted to the welfare of the people.

Dr. J. J. Lloyd, Covington, Tenn., says: "I feel it my duty to write this for the benefit of those suffering from dandruff. In the average case a few applications of Newbro's Herpicide will remove all dandruff. It is advisable to continue its use for several weeks."

The words of J. B. Thompson, M. D., No. 2 Burrrough Place, Cor. Hollis St., Boston, Mass., are not less enthusiastic: "I can only speak in praise of Newbro's Herpicide. It is all that is claimed and perhaps more. Herpicide not only cleanses the scalp but brightens the hair, gives it life and makes it soft."

W. S. Lloyd, Special Agent.

Dr. T. A. Moore, Duncan, Ark., writes of his experience: "My scalp was in places covered by patches of dry, scaly material and the itching was incessant. Since using Herpicide all these evils have disappeared and my hair is soft, smooth and growing. Hair has grown on spots before but thinly covered."

Newbro's Herpicide is "the original remedy to kill the dandruff germ" and stop falling hair. The terrible itching which goes with dandruff is allayed almost at once.

Newbro's Herpicide in 60c. and \$1.00 sizes is guaranteed to do all that is claimed. If you are not satisfied your money will be refunded.

Applications may be obtained at the leading hair shops. Be sure you get genuine Herpicide.

### RAILROAD CONDITIONS

Concerning the railroad conditions of the country, the "Wall Street Journal" of recent date says:

Daniel Willard, chairman of the committee of eastern railroad presidents, and Clifford Thorne, leader of the militant western railroad commissioners, in the pending freight rate advance case, agree that railroad affairs in this

country have reached a crisis.

In the seven months ended with January, the gross earnings of all the railroads of the country included in the monthly aggregates published by the Commerce Commission, fell off in round numbers \$12,000,000, while net earnings, after payment of taxes, were less by \$78,000,000. Of the loss in gross, about \$5,600,000 took place in the so-called eastern district, embracing almost exactly the roads party to the pending rate case; and of the decrease in net, \$52,000,000 fell upon the eastern railroads.

It is as plain as a pikestaff that the railroads in the states east of the Mississippi cannot go on losing more than \$7,000,000 a month from their net revenues without taking vigorous measures to check such dangerous financial exhaustion.

Unfortunately, they have no means of compelling the country to offer more freight for shipment or more passengers for carriage than the country is pleased to offer and at present the country pleases to offer these railroads about \$12,000,000 less gross business a month than it did at this time last year.

In January alone these eastern roads suffered a decrease in gross earnings of \$11,200,000, or about 12 per cent. They reduced the maintenance expenditures by \$1,100,000, and transportation expenses, the obligatory outlay for moving the traffic, by only \$308,000. Taxes increased about \$200,000, and, allowing for minor accounts, the final result was a loss in net operating income for the month, of \$10,350,000.

Eastern railroad managers are now accused of sharp practice when they take steps to avoid bankruptcy. One other measure is left to them. Dividend rates have begun to fall, and many more companies are now in line to reduce or omit their disbursements to stockholders in the event that traffic remains at its present level and rate relief is withheld. Doubtless they will be accused also of reducing dividends to "club" the public and the commission.

In other words, it is the plain duty of a common carrier to

make bricks, not only without straw but even without clay, if that happens to be lacking.

### TO KENTUCKY

#### BUSINESS MEN

Business interests in Kentucky must rely on themselves. Their principal city newspapers are abusing both the Glenn-Greene law and fire insurance companies alike. Some of their congressmen are advertising their incompetency by talking of congressional intervention. Under Supreme Court decisions Congress is further off from fire insurance in Kentucky than China. The last large group of companies trying to operate in the state was forced out by Chairman Laffoon's orders last Tuesday. All words, words, words—no insurance. The papers out in the state seem to understand the situation better, but business men must rely on themselves. They know that insurance or any other companies doing business would not quit the state if they saw a fair chance of operating at a reasonable profit. Some managers might be foolish, but not all. When they see nothing but hardship and no chance for profit all businesses stop. That is the situation with respect to fire insurance in Kentucky. The new law seems ideal for politicians and people who have no property at stake. If ideal for business, then companies would be falling over each other to get in; as it is they are falling over each other to get out. Chairman Laffoon threatens state insurance! Newspapers and congressmen threaten Federal intervention! Words, words, words, but not a dollar's worth of insurance. Let business men insist upon Mr. Laffoon coming down from clouds of eloquence, and getting down to the brass tacks of business. It's time for business sense, not for grotesque political anti-corporation advertising. To-day the insurance companies are getting the hot end; tomorrow it may be your corporation.—The Insurance Field, Louisville.

#### "GOV." AND "ADAM."

Gov. McCreary certainly should have been named Adam. The Governor was up against a tough proposition in Louisville this week, to explain to the business interests of the State, just why he signed the Glenn-Greene Insurance Bill.

But the old gentleman was equal to the occasion, and with his characteristic smoothness got out of it, Adam-like, by laying it on some one else and said the Legislature was so overwhelmingly in favor of the bill, that had I vetoed it, they would promptly have passed it over my veto.

Good, Governor; keep it up. Your record for never taking a positive stand on any important measure is still unbroken.—Winchester Sun.

#### SOCIAL SESSION

Mt. Sterling Lodge No. 723 B. P. O. Elks will have a social session tonight (Wednesday) at its Club, corner Main and Maysville streets, for members only.

As this organization never does things by halves, a royal good time is in store for all who attend.

The blind old world's recognition of her greatest men has ever been a crown of thorns and in death only a monument and a name.

Huyler's delicious candies can be had at Geiger's Pharmacy, Sole Agent.

There is more Catarrh in this section of the country than all other diseases put together. And until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Huyler's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, Etc. Take Hall's Family Pills for constipation.

## NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs. Burton, Under the Circumstances.

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardul, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardul, the woman's tonic. I have taken two bottles of Cardul, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardul to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardul. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. E69-B

#### LOOKS LIKE BECKHAM

If the Leader has any political sagacity whatever, and is any judge of conditions, its decisions and prediction would be that the majority of Beckham over the combined opposition in Mercer county will be at least five hundred in the August Democratic primary.

The crowd that greeted him here Monday overflowed the courtroom and filled the galleries and hall, many standing up and many unable to get in. It was a most representative and splendid body of Mercer's best citizenship. At least two hundred ladies came and listened with as rapt attention as the men folk.—Harrodsburg Leader.

#### BRICK STREET SUIT

The L. W. Hancock Company of Louisville, Ky., has instituted suit in the Montgomery Circuit Court against Montgomery county and the city of Mt. Sterling, seeking a judgment for some \$600.00 for brick street assessment on High street against the county jail. The plaintiff asks for judgment against the county and in the event the court declines to do this, then it asks judgment against the city. In the former suit of the city against the county for cost of brick streets around the court house, on Broadway, Court and Maysville streets, under the first contract, the Court of Appeals exonerated the county and that opinion settles the law of the present case. As to whether or not the contractor can recover from the city is the main question at issue.

#### BUYS CARLOAD

Paul Strother, local agent for the Ford automobile, has received the second carload of machines this spring and believes he will sell still another one before the summer is over. Mr. Strother is a hustler.

I have never read an article about myself in which I recognized myself; was the wallop that President Wilson handed the Washington correspondents. You know, this president of ours is a real man. It is impossible to cover him with newspaper soft soap or fill his ears with blarney. Theodore Roosevelt is a wonderful man, many-sided and versatile, but you could hand him the taffy on a shovel, and he never was too busy to eat it. Woodrow Wilson is different.

### Make Haste Slowly.

The contractors who improved  
Maysville street with asphalt last  
year, having recently patched  
several defective places in it, we  
now imagine are getting ready to  
ask the city to accept the work.

As we recall it, this work was  
finished late in December and  
long after the time for comple-  
tion, under the contract had ex-  
pired. The contract also provid-  
ed for first-class workmanship  
and material throughout. To be  
satisfactory, it must stand the  
test of hot weather and while we  
do not want to impose any hard-  
ship upon the contractors, in all  
seriousness we do want to coun-  
sel against the hasty acceptance  
of this work. It would be well to  
be first sure that the citizens are  
getting what they will be called  
upon, by the acceptance of it, to  
pay for.

### Let's Do Likewise.

A press dispatch imparts the  
information that Chief of Police  
McCord, of Winchester, is pre-  
paring to break up the practice,  
much in evidence on county  
court days and commonly known  
as "horse jockeying," on the  
streets of that city. It is pointed  
out that only "plugs" are dealt  
in, by men who could not be  
classed as desirable visitors and  
that the racing of the animals up  
and down the streets, encourag-  
ed by the excessive use of whip  
and spur, together with drugs, is  
dangerous to the public and con-  
stitutes a common nuisance.

This has always been our view  
of the subject and as we have a  
law prohibiting this practice, the  
attention of our police is again  
called to section 155 of our city  
ordinances.

### Merit Wins.

The voters of the State of Ala-  
bama in the state-wide primary  
there last week, honored them-  
selves when they promoted from  
the lower to the upper House of  
Congress, that great Kentuckian,  
the Hon. Oscar W. Underwood.

Flamboyant bigotry and rank  
political hypocrisy was thus giv-  
ing a needed setback. We confi-  
dently believe the Democrats of  
Kentucky, who are soon to make  
a similar selection, will act with  
as much good sense.

It is high time a general dis-  
tinction be drawn between the  
statesman of character and  
achievements and the political  
demagogue, with nothing but  
some oratorical talent and traits  
of the tragedian, to commend  
him.

Many cities of Kentucky are  
having general clean-up days,  
with very gratifying results and  
as there is no doubt about clean-  
liness being a close relation of  
Godliness, how about a procla-  
mation designating a general  
clean-up day for Mt. Sterling,  
Mayor Oldham?

## HIGH SCHOOL NOTES

(By Courtney Horton)

The operetta "Snow White  
and Seven Dwarfs," will be giv-  
en at the Tabb Opera House un-  
der the direction of Miss Ethel  
Ferguson, Supervisor of Music,  
on the evening of May 8th. Miss  
Ruth Barnes will sing the role  
of the Princess and Miss Mattie  
Judy Botts, the role of the  
Queen. The operetta will be  
supported by Mr. Gemmill Senff,  
as Prince and Mr. Norman  
Brown, as the Huntsman.

Chiles Van Antwerp won the  
prize offered by the Boys' High  
School Club to the student sell-  
ing the greatest number of tick-  
ets to the Glee Club perfor-  
mance.

On Friday evening, April 17th,  
the "Cabbage Hill School," a  
veritable "mirth provoker," will  
be put on by the Freshman  
Class under the supervision of  
Miss Mary A. Lockridge. This  
humorous play presents the  
trials of a new "skewl-marm" in  
the opening day and the perfor-  
mance of the pupils in the pre-  
sence of August visitors on  
closing day. Twenty-four pu-  
pils will take part. Encourage  
them with your presence. Ad-  
mission 15 and 25 cents.

On Monday, April 13th, the  
baseball team of the Mt. Ster-  
ling High School journeyed to  
Lexington, where they played  
the initial game of the season.  
The result was that they came  
out of the game with the long  
end of a 4 to 3 score. Irvin  
Wood, pitching for Mt. Sterling,  
although wild, due to the fact  
that he had been able to get only  
two days practice this season,  
had the opposing batsmen com-  
pletely at his mercy, striking out  
eleven men and allowing only  
five hits. O'Reilly, pitching  
for Lexington did well, but suc-  
cumbed to a fusillade of hits in  
the sixth inning, which netted  
the opposing team three runs.  
Our boys made the victory cer-  
tain by putting over another in  
the seventh. Lexington tried  
hard to tie the score by a des-  
perate rally in the ninth but  
their efforts were dashed into  
the dust, when their pinch-hitter  
made an effort to steal second.  
The features of the game were  
the batting and fielding of Cole-  
man and Hainline, the batting of  
Kelly and last, but not least the  
pitching of Wood. When  
"Smoky Joe" strikes his usual  
stride we are expecting some  
work that will make life miser-  
able for any high school team  
that is brave enough to face him.  
Batteries: Mt. Sterling, Wood  
and Kelly; Lexington, O'Reilly  
and Colson. Hits: Mt. Sterling,  
7; Lexington, 5. Errors: Mt.  
Sterling, 0; Lexington, 4.

At the regular bi-monthly  
awarding of the Hoffman Medal  
in chapel Tuesday morning, April  
14th, Pudgie Samuels, of the  
sixth grade, was the successful  
contestant.

Philadelphia, known the world  
over as the "Boy's Minister,"  
will address the student body in  
chapel Thursday morning at the  
regular chapel period, 9:10. The  
public is cordially invited and  
urged to attend.

### Easter Egg Hunt.

Mrs. Roger Gatewood enter-  
tained about twenty children  
with an Easter Egg Hunt at her  
suburban home Monday after-  
noon. They were taken out in  
a wagonette, chaperoned by  
Mrs. Sophia Randall and Miss  
Lucy Randall. Numerous col-  
ored eggs had been hidden on  
the lawn and the little folks had  
a jolly good time finding them.  
Delicious refreshments of cream  
and several kinds of cake were  
served after the hunt and little

prize for finding the greatest  
number of eggs.

other guests drew for the mas-

one of the prettiest entertain-

pretty compliment to Mrs. Clay.

## FLORIDA GENEROUS TO VETERANS

**Pays Out More Money to Sustain Old Soldiers**

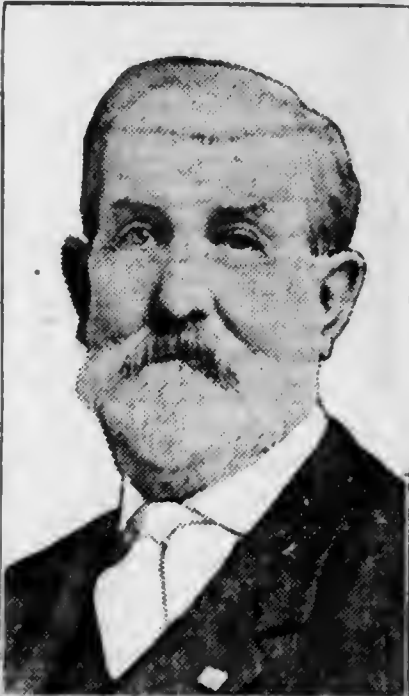

Than Any Other Southern State and Builds Monuments to Memory—Confederate Reunion May 6, 7, 8, at Jacksonville.

Jacksonville, Fla.—The State of Florida pays out more money per capita for the support of dependent ex-Confederate soldiers than any other Southern State. This fact should be sufficient to convince ex-Confederates everywhere that when they and their descendants visit Jacksonville on the occasion of the 24th annual reunion of the United Confederate Veterans' Association that they will be in the hands of their friends. The reunion will be held May 6, 7, 8.

The handsome total of \$600,000 per annum is being paid by the state for support of ex-Confederate pensioners. The average yearly amount paid to each person on the pension list, according to the latest report of the State Board of Pensions, is \$121.25, while the average paid to old soldiers is \$122.30. Widows of Confederate soldiers draw an average of \$120 per annum. Since the report from which these figures are taken was made, the legislature has passed a still more liberal pension law, which will authorize additional payments of approximately \$150,000 a year, making the total \$750,000 per annum paid to Confederate pensioners by the state.

There are 2,633 soldier pensioners on the rolls of the state and 2,227 widows of Confederates, making a total of 4,860. The fund to support this pension roll is raised by a tax of four mills on the assessed property of the taxpayer.

Florida is not only caring for the living but the memory of the dead is also kept green. Throughout the state handsome Confederate monuments have been erected by both public and private means. All told there are twenty, or possibly more, handsome

Gen. W. H. Sebring Jacksonville, Fla., Adjutant General Florida Division United Confederate Veterans.

Confederate monuments in the state, and others are yet to be erected. A home for ex-Confederate soldiers is maintained at Jacksonville. Last year the state appropriated \$5,000 to the Confederate soldiers' home in this city. Two Confederate monuments have been erected here, and a monument may be dedicated to the Women of the Confederacy during the coming reunion.

This brief exposition of the work that Florida is doing for the ex-Confederate soldiers, living and dead, is proof that the people of the state will extend a warm and generous welcome to the old soldiers and their friends on the occasion of the Jacksonville reunion Florida, while situated far South of the great theater of war of 1861-'65, felt the shock of the conflict. Jacksonville was occupied four different times by the federals. The purposes of this occupancy, according to official reports on file in archives of the War Department, were to keep the St. Johns river open from its mouth to the head of navigation and to arm the negroes for service in the Union Army. The small Confederate force in East Florida in 1863 was commanded by Gen. Joseph E. B. Johnston. On March 13, 1863, Gen. Johnston issued a proclamation here in which he said: "I feel it my duty as brigadier-general commanding this district to inform the people of the district and of the state that our unscrupulous enemy has landed a large force of negroes, under command of white officers, at Jacksonville, under cover of gunboats. He is attempting to fortify the place so as to make it secure against attacks. The purpose of this movement is obvious and need not be mentioned in direct terms. It is sufficient to inspire the whole body of people with a renewed and sterner purpose of resistance. I therefore call on such of the citizens as can possibly leave their homes to arm and organize themselves into companies without delay and report to me."

Gen. R. Saxton (U. S. A.) in a report to the War Department dated March 14, 1863, says: "The object of this expedition was to occupy Jacksonville and make it the base of operations for the arming of negroes and securing in this way possession of the entire State of Florida."

## ASK RE-HEARING

Through attorneys O'Rear & Williams, of Frankfort, Ky., the appellants in the local option election contest case from this county, have filed petition for re-hearing, wherein the Court of Appeals is asked to reverse its former decision and direct a dismissal of the contest upon the ground that the point relied upon by the court in its decision, was not set up and relied upon by the contestants and should therefore not be considered by the court upon appeal. In asking that the case be reversed and the contest dismissed the petition for re-hearing ends, with the following statement:

"In doing so, this court will have preserved the practice, as announced in the majority opinion; will maintain the statute and code provisions, as manifestly the court ought to do, and will, happily, allow to prevail the clearly expressed, undoubted judgment and will of a vast majority of the electorate of the county whose interests and well being are affected by this proceeding. It will do more; it will shame those practices indulged in attempting to thwart the public will in calling this action by means which could never commend their cause to this or any court of justice."

## JUDGE WINN LOOMS UP

Judge Robert H. Winn, of Mt. Sterling, who was appointed on the bench of the Court of Appeals when Judge E. C. O'Rear resigned in 1911, is looming up as one of the most formidable aspirants of the Republican nomination for United States Senator and he is in high favor with the leaders who are looking around for a winning candidate. Judge Winn is a high-class lawyer and a man of brilliant attainments. Those who are pressing his claims for the toga, claim that he has never been identified with any of the Republican factions and that he would be entirely satisfactory to the followers of Col. Roosevelt in 1912. Judge Winn has been in Louisville recently and met with some of the local Republican "big wigs" while here, when it is presumed his candidacy was discussed.—Louisville Times.

## THIS NEW KIND OF

## Motorcycle

CAN BE USED ALL WINTER

If you buy a Two-Speed Yale Motorcycle you can ride it all through the winter as well as during the months of good weather, for there is a machine of such great ability that it will do work that was impossible with the older types. With the tremendous reserve power of the Two-Speed Yale you can plow through the deep snowdrifts without trouble. The low center of gravity and perfect balance make it easy to handle on bad roads, and the big three-inch (automobile size) studded tires grip the snowy or ice covered road surfaces firmly and make control safe and sure. True, the old kind of motorcycles couldn't do this—most riders stored their machines till springtime—but the new Two-Speed Yale is a machine for use all the year round, under all conditions.

## OLD HICKORY AND SEMINOLES

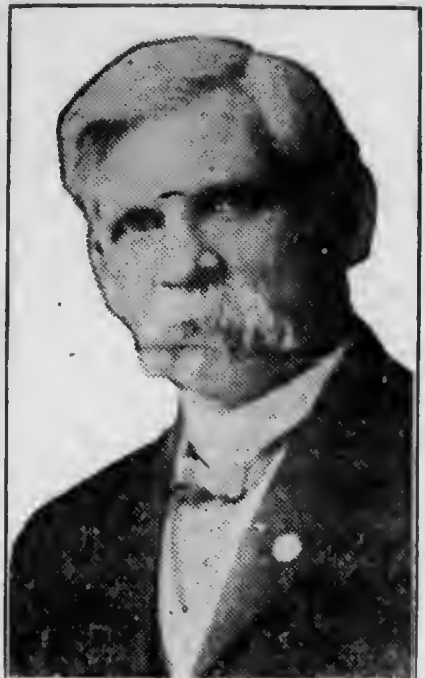

Modern Jacksonville Reverses His Memory At Reunion

Spirit of Great Man Militant in Confederate Reunion City—Why Jacksonville Was Named in His Honor.

Jacksonville, Fla.—Confederate soldiers, the world over, revere the name of Andrew Jackson, and in view of the fact that their next reunion is to be held in the only city in the South that was named in honor of that great and brave man, his services in freeing Florida from the blight of Indian barbarism will be of interest.

Jacksonville was named for Gen. Andrew Jackson as a compliment and mark of appreciation for services he rendered to civilization in the Seminole War. There could have been no progress or civilization in Florida but for the work of Andrew Jackson. Conditions in this territory in 1818, nearly a hundred years ago, demanded the services of a brave and resolute man. Gen. Jackson was selected by the government as the one man above all others to head the movement against the Seminole Indians, who had been terrorizing the territory for several years and committing atrocities of the most brutal character.

In March, 1818, Gen. Jackson was ordered to the site of the Seminole War. He invaded East Florida, and in a campaign of less than six weeks crushed these Indians. It is related

Gen. Bennett H. Young, Louisville, Ky., Commander in Chief United Confederate Veterans, Who Hold Their Reunion at Jacksonville in May.

by historians that in one village, not far removed from Jacksonville, he found 300 scalps of men, women and children, many of them still fresh, hanging on a war pole. Gen. Jackson knew that the Spaniards were in sympathy with the Indians in their attacks on American settlers. After cleaning up a number of Indian villages he captured the Spanish post of St. Marks. For this act he was severely censured by his government. However, the naked fact is that "Old Hickory" was more courageous than the men who were conducting the affairs of state at Washington.

Early in May, 1818, Gen. Jackson closed his campaign against the Seminoles in East Florida. He had completely broken their power and run them out of the territory. They caused no more serious trouble.

During his campaign in East Florida Gen. Jackson obtained satisfactory evidence that Spanish officers at Pensacola were in sympathy with the Indians. He promptly decided to march against them and teach them a lesson. The Spanish governor of West Florida, learning of Gen. Jackson's purpose, sent him a written protest against his invasion. This protest is now on file among the Jackson documents in charge of the Tennessee Historical Society at Nashville. The protest was delivered to Gen. Jackson near Pensacola on May 23, but it had no effect on that determined man. In reply he sent a peremptory demand for the immediate surrender of Pensacola and Barrancas. Jackson advanced immediately on Pensacola and possessed it. Two days later the Barrancas garrison capitulated, were received as prisoners of war and sent to Havana.

Having thus snatched both East and West Florida from the Indians and Spaniards, Gen. Jackson at once proceeded to establish a provisional government under the stars and stripes. Having accomplished this, he returned to Tennessee, then his home.

In 1822 a number of pioneers held a meeting here and decided to start the work of building a town. The village was then known as the Cow Ford, a name given to it by the Indians. After perfecting an organization, the incorporation unfurled the banner of Jacksonville in honor of Gen. Jackson, who had made it possible for white men to live here.

When the Confederate soldiers and their friends meet here for the 24th annual reunion Jacksonville will impress them with all the force of Andrew Jackson. It is now a modern progressive city of 85,000 population, one of the thriving business centers of the New South. Its varied attractions will delight all who attend the reunion, and no matter how large the crowd may be, Jacksonville will take care of all.

## MACON, GA., CHILD

Made Strong and Well by Vinol. When we tell you that Vinol is the best remedy in our whole stock for making weak, puny, ailing children strong, robust and rosy we are only telling you what has been proved by hundreds of mothers.

J. L. Pickling, Macon, Ga., says: "My child was very thin and delicate, no appetite, nervous, and did not sleep well. Doctors did not help her. Vinol was recommended and the change after a fair trial was wonderful. She sleeps soundly all night, has a splendid appetite and has gained in weight. I wish every mother knew what Vinol will do for delicate children."

What Vinol did for this little girl it will do for every weak and ailing child because sickly children need the strengthening cod liver elements and the tonic iron that Vinol contains—that is why Vinol builds them up quickly and gives them a fine, healthy color. It is pleasant to take and we guarantee that the results will satisfy you—money back if they do not.

## AN OLD ONE BY TWAIN

When Mark Twain in his early days was editor of a Missouri paper, a superstitious subscriber wrote him saying that he had found a spider in his paper, and asking him whether that was a sign of good or bad luck. The humorist wrote him this answer and printed it:

"Old Subscriber: Finding a spider in your paper was neither good nor bad luck for you. The spider was merely looking over our paper to see which merchant is not advertising, so that he can go to that store, spin his web across the door and lead a life of undisturbed peace ever afterwards."

## CAMDEN FOR GOVERNOR

Col. Johnson M. Camden, of Woodford county is in Louisville to attend the big southern educational conference this week and to preside over the farmers' adjunct of the notable gathering. Col. Camden is being frequently mentioned these days in connection with the gubernatorial race next year, but he only smiled when told that he was regarded by many as the Democratic hope in the 1915 State contest. He was delighted on his arrival here on being handed a telegram stating that his friends and business associate, John C. C. Mayo, of Paintsville, who has been desperately ill in a Cincinnati hospital, was much improved and that his doctors now hold out the hope of his recovery.
